Indian Commissioner.

Indian Office, Regina.

May 12th, 1891.

TENDERS.

SEALED TENDERS marked "For Mounted Police Provisions and Light Supplies," and addressed to the Honourable the Minister of Railways and Canada, Ottawa, will be received up to noon, on Friday, 19th June, 1891.

Printed forms of tender, containing full information as to the articles and approximate quantities required, may be had on application at any of the Mounted Police Posts in the North West, or at the office of the undersigned.

No tender will be received unless made on such printed forms.

The lowest or any tender not necessarily accepted.

Each tender must be accompanied by an accepted Canadian bank cheque for an amount equal to ten per cent of the total value of the articles tendered for, which will be forfeited if the party declines to enter into a contract when called upon to do so, or if he fails to complete the service contracted for. If the tender be not accepted the cheque will be returned.

No payment will be made to newspapers inserting this advertisement without authority having been first obtained.

FRED. V. WHITE,

Comptroller, N. W. M. Police.

Ottawa, May 15th, 1891.

TOWN COUNCIL

The Town Council met on Monday evening last.

All the members were present. His Worship, the Mayor in the chair.

After the reading and adopting of the minutes several communications were read and referred to the proper committees, after which the Council resolved into a Court of Revision.

No appeals of any importance being made against the assessment, the roll was confirmed. The Council then resumed its regular work.

Donaldson—Montgomery—That Mr. Combs be paid \$200 salary as assessor and \$15 postage.

D. F. Campbell's dray license was transferred to Gee, Proctor, and a Feed Stable license was granted to D. Pollock.

Mr. Newlands, solicitor for Messrs. Osler, Hammond & Nanton, applied for the use of town map, which was granted upon satisfactory assurance that the map would be returned in as good a state as when received.

The communication of the editor of THE PRINCE ALBERT TIMES re-organizing the band was referred to a committee consisting of the Mayor and Couns. Donaldson and McLellan, to deal with, and as these are all musical gentlemen the people of Prince Albert may look forward to the usual band serenade on Dominion Day.

The report of the license inspector and town constable was read and was most unique, and caused much merriment for those present.

Considerable discussion took place over some licensed houses having their bars open after 11 p.m., and on Sundays. The Council then adjourned.

Sir John's Condition.

Ottawa, May 31.—To-day has been an anxious day in Ottawa. The attention of the whole city has been centered on Earncliffe where the premier lies on the borderland of death. Bulletins were posted in all the hotels, the clubs, the Commons chamber and the telegraph offices, and there was always an anxious crowd about them. In all the churches announcements of the premier's condition were made and prayers offered up for his recovery. Yesterday evening Sir John's death was momentarily expected; he seemed to be sinking and went off into a semi comatose condition, from which he was aroused with difficulty. After midnight though he brightened a little, and this morning was reported resting more easily. That has since been his condition. At times he seems conscious, but is quite speechless. Up to midnight there was no perceptible change for the worse though it is feared his vitality, which is abnormal, is steadily being reduced. Doctors admit the hopelessness of the case. They have not changed their original opinion that the paralytic stroke with the other affections will result fatally, possibly in a few hours, and at all events within a few days.

The following bulletins have been received from hour to hour:

MONDAY.

1 a.m.—No change in Sir John's case. Taking nourishment and resting easily.
2:15 a.m.—Sir John is sleeping easy; there is no material change.

3:30 a.m.—Sir John's condition remains unchanged; sleeping quietly.

3:45 a.m.—Sir John very conscious; seems to know everything going on.

LATER.

6 a.m.—Sir John has been asleep since 4 a.m.

9:15 a.m.—No material change in Sir John since issue of last bulletin.

6:45 a.m.—Sir John slept more than usual during the night. His symptoms this morning show no change from yesterday. At intervals his heart's action becomes very weak but rallies after nourishment and a change of posture.

8:45 a.m.—Sir John's condition apparently shows a decided improvement and there is now an increasing belief that he will recover.

10 a.m.—Sir John is much the same. Resting quietly.

LATEST.

Ottawa, June 1.—22:20—Premier still living, but doctors report vitality slowly decreasing.

Ottawa, June 2.—19:35—Sir John's condition unchanged. Taking nourishment. If anything a little stronger.

Montreal, May 20.—Sir George Stephen has been created a peer by Her Majesty. This is the first instance of a peerage having been conferred on a Canadian.

Philadelphia, May 30.—David Brooks, the electrician and inventor of electrical appliances, died in Germantown aged 72 years.

Toronto, May 30.—The Northwest Land Co's books closed in London to day for a return of two and a half shares capital and open again June 13th.

Kingston, May 30.—The rate of taxation of the city has been fixed at seventeen and a half mills.

London, May 30.—The governor of the Bank of England has been appointed a member of the Privy Council.

Montreal, May 30.—It has been decided to hold the Dominion Labor congress in Quebec. It will be opened August 31st.

ANOTHER DELEGATION.

A large delegation of Dakota farmers, sent by their fellow sufferers in that State, to inspect the different agricultural districts of the Canadian North West, with the view of an immediate transfer of families, should the report of the delegation be considered satisfactory, arrived here on Saturday's train. We say they arrived here, and we may also add that it was not owing to the efforts put forth by some of the residents of Regina and other main line towns that such was the case. On the contrary, we regret to state, agents and residents of towns and districts to the south of us, worked tooth and nail, by malicious and false misrepresentations regarding this district, to dissuade the members of the delegation from visiting Prince Albert. Were this the first instance of such scandalous conduct on the part of our southern fellow citizens, we might refrain from comment upon it, but the fact is that ever since the opening of the Prince Albert branch of the C. P. R., to this town, a portion of the community mentioned have spared no labor to misrepresent the climate, soil, and in fact all the varied resources of the Saskatchewan country. We do not say that the people of the south as a whole, indulge in these matters, but from many incomes we have their positive statements that all sorts of malicious lies have been told to them about our district. Hitherto we have avoided even the possibility of stirring up these feelings of jealousy, but the meanness of the action of those who endeavored to persuade the Dakota delegation referred to is so despicable as to call from us a word in reply. It seems quite evident from all the facts at hand that the people of the south are jealous of those in the north, and we cannot but remark that there is abundant reason why they should be, with nothing on God's green earth but prairie and sky, and gumbo soil to depend upon, it is not surprising that these unfortunate people should feel resentful, and wish that they had

settled in this fertile belt of the North West, where added to numberless acres of the most fertile prairie soil, the sense of sight is not blighted or the eye wearied by those endless expanses of plains, "bounded only by the horizon," but where millions of acres of first-class timber woods, with one of Canada's grandest water ways, the mighty Saskatchewan, flowing through the richest country in nature's resources on earth, a country with a soil that has stood the test of seeding and harvest for thirty years without a known failure of crops to record, a country that has caused to be built and supported a Town of fully two thousand inhabitants, with its large manufacturing concerns such as lumber and flouring mills, brick works, etc., with its newspapers, church, school and municipal organizations, second to no town of its size in Canada, together with a population whose superiors in education, intelligence and enterprise are not to be found in this or any other country, and who in the face of unparalleled isolation from railway communication fought manfully onward until they attained their rights, and obtained such assistance that a railway 240 miles in length was built to the town of Prince Albert, to connect it with the other portion of the world. It is not to be wondered at, we say, that a country possessing all these advantages, should become a target for slander and misrepresentation by the people of less favored districts, but the time has not come when retaliation of the same kind is necessary, for the Saskatchewan valley is not only holding its own with the spoon fed railway towns of the south, but is becoming widely known and recognized as the most superior part of the North West Territories of Canada for general farming purposes, and strange as it may seem there are none better aware of these facts than the very people who are using their utmost endeavors to arrest the influx of immigrants now coming in to the Prince Albert district, and when the people of the south have reached the present deplorable state of the residents of the Dakotas, we have hopes that this knowledge will be of use to them, and that they may still be able to recuperate their shattered resources by finding profitable homes in the Saskatchewan valley.

Canada's exports for the first ten months of the fiscal year 1890-1 are \$242,399 ahead of the amount for the same period the year before. Mr. McKinley is again knocked out.

Interest attaches to the details given of the imports and exports of Canada during the past ten months. Notwithstanding the causes that might have been expected to induce a heavy decrease, the exports of the country, on the whole, show an increase over the similar period in the previous fiscal year. The large increase in the export of agricultural produce is perhaps due to the rush of stuff over the border last September to avoid the new tariff. The increases in other classes of exports, such as minerals and manufacturing goods, are satisfactory. The heaviest decrease is the \$2,500,000 of forest products not due to any fiscal condition, but to a dulness in the lumber trade. This large falling off in one item, is, however, made up by the increases in other lines.

Saturday and Sunday's rainfall has done an immense amount of good. From all over comes the cheering news that never before at this season has grain looked so well or been so far advanced.

GENERAL NEWS

Montreal, May 28.—The recent quarantine of Canadian lambs at Buffalo and other points west, when they are shipped to the States, has been so severely felt that shippers are now turning their attention towards England as a market. In all probability experimental shipments will soon go forward. For a long time sheep have been exported successfully to England.

Toronto, May 28.—Argument was heard to-day by the court of appeal on the question of the constitutionality of the Local option law of the Ontario legislature and judgment reserved.

Montreal, May 28.—A medical examination of McClanaghan, the hotel man, whose remains were found in the Lachine canal, shows that death was caused by strangulation.

Berlin, May 28.—A relief committee has secured a long railway tunnel at Charlottenburg to shelter Russian Jews en route to Hamburg for embarkation to New York. Clothing, tea, coffee, bread and brandy are in readiness to

relieve the misery of the crowds vomited forth by the trains. Heartrending scenes are enacted and terrible tales of suffering are told. Many left home on a day's notice and were compelled to abandon everything but what they wore. They all talk in high hopes of their prospects in America which they regard as the promised land.

London, May 28.—Lord Salisbury, on behalf of the government, has been for some time negotiating with the municipality of London for a site for a national gallery on the Thames embankment. A year ago an anonymous philanthropist offered to give £150,000 to found such an institution, provided the government would furnish the site. Attempts to obtain a location in South Kensington failed, but the city fathers, after discussing the project, have passed favorably on it, and will probably offer the government a site worth about £400,000 on easy terms. The exact locality of the proposed gallery has not yet been made public.

Montreal, May 28.—Canadian Pacific earnings for April 1891: Gross earnings, \$1,608,308; working expenses \$1,008,824;

net profits, \$599,485. In April 1890, the net profits were \$440,162, and for the four months ending April 30th, 1891, the figures are as follows: Gross earnings, \$5,822,063; working expenses, \$4,058,902; net profits, \$1,763,071. For four months ending April 30th, 1890, the net profits were \$1,207,294. The earnings and expenses of the New Brunswick railway are included in both years.

London, May 28.—In the House of Commons William Henry Smith, the Government leader, stated that the matter of foreign immigration was receiving the serious attention of the Government. It did not appear that immigration had materially increased since the report of the committee recently appointed to investigate the subject had been submitted. That report, he said, had not recommended immediate legislation as being necessary in the premises.

Goschen, Chancellor of the Exchequer, gave notice that he would introduce a bill the provisions of which would enable Her Majesty's Government to prohibit the catching of seals in the waters of Behring's Sea for a period which would be specified in the bill.

Berlin, May 28.—The Kaiser has sent a handsome present to the Borussia club, at Bonn, in recognition of his hearty reception by the students on the occasion of his recent visit. The club has voted its thanks and a pledge of unfailing loyalty for the Kaiser's gracious kindness.

Vancouver, B.C., May 28.—The SS. Parthia arrived from China and Japan last night at eight o'clock, having made a very quick passage of a little over 12 days although delayed eight hours in a fog. She brings 50 saloon passengers, 310 Chinamen and 58 Japanese. Her cargo consists of 2,170 tons mostly tea, and 21 sacks of mail for America and Europe. This is the 19th and last voyage of the Parthia on this route.

London, May 28.—Several cases of death from privation are reported among the miner's families at Westphalia owing to the men being out of work since the strike. The authorities are said to be acting with great brutality and severity toward the unfortunate people against whom a lock-out from work has on all sides been instituted.

Montreal, May 28.—A deputation of

steamship agents and cattle exporters left to-day for Ottawa to protest against doing away with spare decks for cattle carrying purposes as proposed by the Imperial Government.

Washington, May 28.—Rear Admiral Carter died at his home in this city yesterday.

Toronto, May 28.—William Stewart, a blind law student, heads the list in the results of the final examination in connection with the Ontario law school.

Ottawa, May 28.—In the Supreme Court to-day the appeal case of Barrett against the city of Winnipeg was taken up, S. H. Blake opening on behalf of the appellants.

Berlin, May 28.—Prof. Charles Wm. Maegaell, the distinguished German Botanist is dead. He was born in 1817, and educated at the universities of Zurich, Geneva and Berlin. His writings are among the most valuable contributions to the literature of the science of Botany.

The *Scientific American*, published by the great patent agency firm of Munn & Co., New York, is the most practically useful publication of its kind in the country. Indeed, it occupies a field distinctively its own. Not alone for the machinist, manufacturer, or scientist, but it is a journal for popular perusal and study. It is the standard authority on scientific and mechanical subjects. It is placed at a very low rate of subscription, \$3 per annum, which places it within the reach of all. Subscriptions will be received at the office of this paper.

We are pleased to be able to announce that the Prince Albert band has been reorganized. The band will be under the leadership of Mr. J. Street, who is an old hand at the business, having been leader of the 32nd Battalion band, Co. Bruce, for years. All the old band boys are taking instruments in the new formation, and we have no doubt as to the success of the undertaking. Mr. Street expects to have his band in good playing form by the 1st July, and intends doing his share in enlivening the proceedings of our national holiday. We trust the citizens generally will do their best in encouraging the band in every way, and help to make it a success.

The Publishers of *The Canadian Queen* Toronto, Canada, are offering two new prize competitions, with leading prizes consisting of a pair of Shell and Ponies, carriage and harness, a Free Trip to Europe, first class upright piano, two weeks vacation to any summer resort in Canada or the United States, all expenses paid; safety bicycle or tricycle, one hundred dollars in cash, suite of parlor furniture, ladies' gold watches, etc., etc. This magazine has become famous on its prize competitions. Hundreds of Canadians have won valuable prizes in previous contests. Sample number of *The Queen* with full particulars, will be sent by the publishers upon the receipt of the address of any lady and four cent stamps. Address, *The Queen*, Toronto, Canada.

The *Dominion Illustrated* not only maintains but steadily improves upon the high standard of literary and artistic excellence which has especially marked that splendid Canadian journal since its enlargement at the beginning of this year to 24 pages weekly. The handsome engravings produced each week are well selected, and in addition to general views there are always some relating to current matters of general interest. A group of bright and gifted writers are regular contributors to its literary contents, and its pages reflect the best thoughts of clever men and women. Such a journal deserves the gratifying support which it receives at the hands of the reading public. The enterprising publishers, The Sabiston Litho. and Pub. Co., Montreal, make it their constant aim to improve both the matter and appearance of the journal, and their success is certainly gratifying and creditable.

THE RIFLE.

On Saturday last the second competition in the Territorial League matches took place at the Police ranges. The day was cold, dark and gloomy, and as a consequence low scores were made. The competitors and scores were:—
